- Travelers quoted renewal terms with a 1.97% increase in total payable due to a minor increase in revenues. To ensure that Traveler's terms were in line with the current market, we marketed the account to five alternative markets who are traditionally competitive in this space.

  While the overall coverage is largely comparable, there are a few coverage differences outlined above The most notable differences are wrongful collection and if breach response costs outside the policy limits is offered covering things like legal, forensics, PR, notification, and credit monitoring. We also provided a $2M limit option as their peers with similar revenues carry higher limits.

  Given the premium decrease in total payable and additional coverage for Breach Response Costs, our recommendation would be to move to Coalition.
