Expert Breach Response Services

Mullen Coughlin and McDonald Hopkins are law firms uniquely dedicated exclusively to representing organizations facing data privacy events, information security incidents, and the need to address these risks before a crisis hits. These firms provide the **Breach Response Hotline** service to E-Risk Services' Cyber, Media and Technology Security Services and Cyber and Professional Services policyholders.

These firms recognize that your organization may be victimized by a data privacy and security incident at any time of day and that an immediate response is needed to mitigate the impact on its operations. Should a data privacy and security incident arise that requires outside counsel:

What to expect

When you contact the 24/7/365 Breach Hotline or email, the new file is immediately assigned to an Intake Specialist (IS) who will review the information and confirm details such as where your organization is located and whether you are a subsidiary or a parent company (if applicable), as well as confirming the same information for any third parties that may be impacted by the incident. Once this process is finished, the IS begins the conflicts review process.

Once conflicts are cleared, typically within 15 minutes, the firm will contact your organization's representative to obtain a high-level understanding of the incident and to schedule an initial privileged Triage Call with a lead partner and associate, all while communicating with and keeping E-Risk Services informed in real time and at no cost.

Policyholders can use this Breach Response Hotline to provide notice in the event of a **Claim**, **Cyber Information Breach**, **Technology Threat**, **Technology Breach**, or any instance of **Technology Fraud Theft**. For more details, please review Section E, **NOTIFICATION AND DISCOVERY**, in this **Policy**.

How does KYND work?

KYND scans a single URL to uncover exposed services, critical vulnerabilities, and connected assets. The non-invasive scan checks more than 280 cyber risk factors, including domain registration, email security, and internet-facing services.

What is KYND ON?

KYND ON is a cyber risk monitoring platform that helps you quickly understand and prevent threats. It gives instant visibility into your organization's internal and external cyber posture, with continuous monitoring to reduce exposure and stay ahead of risks.

What is a Risk Report?

The Risk Report — which can be generated in the KYND ON platform — is a one-off report that reveals where your business may be vulnerable to cyber threats.

This powerful, non-intrusive scan identifies external risks and vulnerabilities that could expose you to attacks. With clear and actionable recommendations, it provides a concise snapshot of your organization's cyber risk at a specific moment in time.

What's in a Risk Report?

Your KYND ON Risk Report will show a clear, traffic light-style view of your cyber risk — so you know exactly where you stand at a glance. The dial numbers represent the risk factors that KYND has discovered.

🔴 **RED:** Marked as "High risks", these are the risks that KYND believes will cause business interruption if not addressed.

🟠 **AMBER:** Marked as "For consideration", these are the risks that KYND believes may cause possible business interruption if not addressed.

🟢 **GREEN:** Marked as "Look Good", these risks appear not to carry an immediate risk based upon the information KYND has access to.

POLICYHOLDER DISCLOSURE
NOTICE OF TERRORISM INSURANCE COVERAGE

PREMIUM CHARGE FOR TERRORISM COVERAGE

TERRORISM RISK INSURANCE ACT

You are hereby notified that the Terrorism Risk Insurance Act of 2002, as amended pursuant to the Terrorism Risk Insurance Program Reauthorization Act of 2019, effective January 1, 2021 (collectively referred to as "TRIA" or the "Act"), established a program within the Department of the Treasury under which the federal government shares, with the insurance industry, the risk of loss from future terrorist attacks. Under the Act, you have a right to purchase insurance coverage for losses arising out of acts of terrorism. As defined in Section 102(1) of the Act: The term "certified acts of terrorism" means any act that is certified by the Secretary of the Treasury -- in consultation with the Secretary of Homeland Security, and the Attorney General of the United States -- to be an act of terrorism; to be a violent act or an act that is dangerous to human life, property, or infrastructure; to have resulted in damage within the United States, or outside the United States in the case of certain air carriers or vessels or the premises of a United States mission; to have been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States government by coercion.

DISCLOSURE OF FEDERAL SHARE OF COMPENSATION

You should know that where coverage is provided by this policy for losses resulting from "certified acts of terrorism," such losses may be partially reimbursed by the United States government under a formula established by federal law. However, your policy may contain other exclusions which might affect your coverage, such as an exclusion for nuclear events. Under the formula, the United States government agrees to reimburse eighty percent (80%) of covered terrorism losses that exceed the statutorily established deductible paid by the insurance company providing the coverage. The premium charged for terrorism coverage is provided below and does not include any charges for the portion of loss that may be covered by the federal government under the Act.

CAP ON LOSSES FROM "CERTIFIED ACTS OF TERRORISM"

You should also know that the Terrorism Risk Insurance Act, as amended, contains a $100 billion cap that limits United States government reimbursement as well as insurers' liability for losses resulting from "certified acts of terrorism" when the amount of such losses in any one calendar year exceeds $100 billion. If the aggregate insured losses for all insurers exceed $100 billion, your coverage may be reduced.

CONDITIONAL TERRORISM COVERAGE

The Terrorism Risk Insurance Program Reauthorization Act of 2019 is scheduled to terminate at the end of December 31, 2027 unless renewed, extended or otherwise continued by the federal government. Should the Act terminate on December 31, 2027, or be repealed, any terrorism coverage as defined by the Act provided in the policy will also terminate.

DISCLOSURE OF PREMIUM

In accordance with the Act, we are required to offer you coverage for losses resulting from an act of terrorism that is certified under TRIA as an act of terrorism. The policy's other provisions will still apply to such an act. We are further required to provide you with a notice disclosing the portion of your premium, if any, attributable to coverage for terrorist acts certified under the Terrorism Risk Insurance Act.

Nationwide

Your premium for certified terrorism coverage is **$70.00**. This amount does not include any charges for the portion of losses covered by the United States government under the Act.

If you choose to accept this offer, this form does not have to be returned.

You may choose to reject this offer by signing the statement below and returning to us. Your policy will be changed to exclude the described coverage.

NOTE: In this state, a terrorism exclusion makes an exception for (and thereby provides coverage for) fire losses resulting from a certified act of terrorism. Therefore, if you reject the offer of terrorism coverage, that rejection does not apply to fire losses resulting from a certified act of terrorism and coverage for such fire losses will be provided in your policy.

REJECTION OF COVERAGE FOR "CERTIFIED ACTS OF TERRORISM"

	I hereby reject the purchase of certified terrorism coverage on behalf of the Policyholder/Applicant. I understand that the policy will provide no coverage for losses resulting from "certified acts of terrorism" (with the exception of fire losses resulting from a "certified act of terrorism"), and an exclusion of certain terrorism losses will be made part of this policy.
